Support & Practical Magic  
with The Primal Hummingbird

# THE WHY

Mercury will be Retrograde for the first time in 2026 in the watery sign of Pisces starting February 25 through March 20

Mercury in Retrograde has gotten a BAD rap in recent history and that's a bummer because Mercury is associated with the Magician, Magic, likes to MOVE and LOVES new ideas!!!

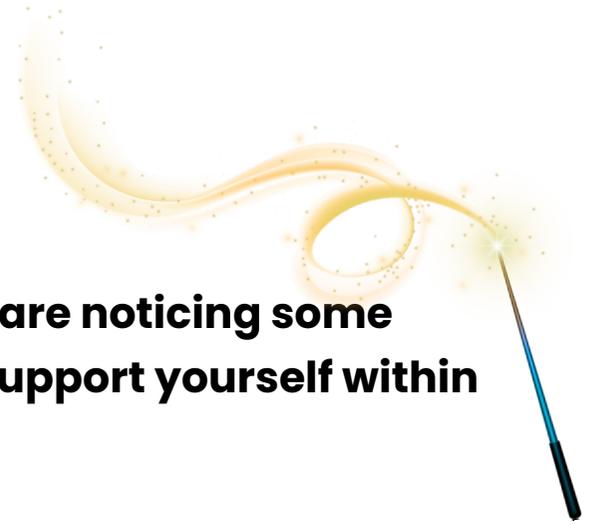

Understanding more about Mercury, Retrogrades, Your natal Mercury and where it is REVIEWING in your chart will make the next three weeks WAY easier (and WAY more FUN!!)

# WHO IT IS FOR

## 2026 HAS BEEN A THING ALREADY

It's a YEAR of significant changes (it has only just begun). IF you are noticing some discomfort around where things are changing and what to do to support yourself within the chaos. Astrology is a great TOOL for the toolkit!

## AN ENTRY OFFERING

**You do not have to speak astrology to get ideas** from this offering as to how to work with Mercury. It's a great opportunity to channel a little magic intentionally and support yourself this year.

## YOU ARE CURIOUS

Curiosity is associated with mercury. Astrology is becoming very buzzy and popular this year AND it is still quite mysterious as to HOW it practically helps.

That is what I am all about in your real life.
